Unit Managers' Meeting
218 E-8 Borrow Pit Demolition Site Closure Plan
2440 Stevens Center Place, Room 1416
Richland, Washington

Meeting Held September 20, 1994
From 8:00 to 9:00 a.m.

Summary of Discussion and Commitments/Agreements

1. Approval of Past UMM Minutes

The August 16, 1994, Unit Managers' Meeting Minutes were reviewed and signed by the Unit Managers.

2. Status Action Items:

-No Open Action Items

- There was no discussion.

3. Status Closure Activities:

-Status NOD Comments (On Schedule)

WHC (D. M. Korematsu-Olund) stated that WHC Commercial Analytical Services (CAS) has received the analytical results for the July 13, 1994 sampling effort. The raw data received from the outside contracted laboratory is currently undergoing validation by a subcontractor. CAS will review the data package and the validation completed by the subcontractor before sending the final data package. RL (R. N. Krekel) stated that once WHC has reviewed the validated data it will then be sent to RL for review prior to issuing the data to Ecology. Ecology (F. Ma) asked when Ecology would expect to receive a copy of the validated data package? RL (R. N. Krekel) stated it would depend on when WHC receives the final data package from CAS and submits it to RL. WHC (D. M. Korematsu-Olund) estimated a 21 day validation turnaround, plus an additional 10 day internal review by CAS, before the WHC RCRA closure group would receive the final data package.

WHC (D. M. Korematsu-Olund) informed Ecology that 200 West Area Ash Pit Demolition Site (Ash Pit) Notice of Deficiency (NOD) comment response resolution table will be submitted with the closure plan revision on October 6, 1994. The 218 E-8 Borrow Pit Demolition Site (218 E-8) closure plan revision 1 and it's NOD comment response resolution table will follow in two weeks, transmitting to Ecology on October 21, 1994. Ecology (F. Ma) inquired how long Ecology will have to review the revised closure plan? RL (R. N. Krekel) stated that RL had not seen the new schedule that Ecology had proposed for the NOD cycles. WHC (D. M. Korematsu-Olund) believed the proposed schedule indicated that Ecology had 60 days to review the revised closure plan.

RL (R. N. Krekel) stated that RL is putting together a planning schedule that lists all the activities associated with the revised closure plan and the sampling, data validation, data evaluation laid out in a schedule that we can work to at each UMM. Westinghouse is still being tasked to develop that schedule.

Ecology (F. Ma) inquired if there were any funding problems for next fiscal year concerning the demolition site projects? RL (R. N. Krekel) said that the closures should be funded for completion of the sampling, paperwork, revisions, data evaluation and so forth. MACTEC (P. J. Macbeth) was sure that the demolition sites were financially covered next year. But requested that RL Operations unit manager E. D. Macalister or his representative have the action to verify and discuss funding for the demolition sites at the next UMM.

4. New business:

-Open discussion

RL (R. N. Krekel) introduced Ellen M. Mattlin as the new RL Unit Manager for RCRA closures starting the month of October.

5. Set new meeting date:

The next Unit Managers Meeting was scheduled for October 18, 1994 8:30-10:00 a.m. Richland, WA.

1. The first group of people who are not in the labor force are those who are not in the labor force because they are not in the labor force.
